Initially What to Do During a Tornado WATCH What to Do During a Tornado WARNING What to Do After a Tornado Chapter 6 - First Aid Provision Bleeding wounds Internal bleeding Burning Burn symptoms Principles of first aid against burns Broken bones Symptoms of broken bone wounds Treatment of broken bone wounds Conclusion Author Bio Publisher Preface Tornadoes are a havoc creating, damage wrecking, and windy revenge of nature on earth. Escaping the wrath of the tornado is no easy task. However, we simply cannot give up on our survival and hence we plan and work out our strategies to combat it. In this book we will try to start off by explaining to you how these devilish things are created and show you some of their signs. We will then show you how the system has been established to provide you with watches and warnings and stress upon the importance of planning. Surely we will give you plans and various tips on how to face the tornado and we sum it all up by giving you the disasterkits and the supplies you require. Lastly, we will give you an insight into a crucial element which is the first aid treatment for the basic wounds that you might suffer from.
